

SUMMER DAY CAMPS

The City of Gahanna Department of Parks & Recreation offers a number of summer day camp programs for a variety of ages and interests. A day camp experience offers opportunities for children to learn how to interact with others, gain problem-solving skills, develop both independence, think beyond self and connect with nature while staying safe, keeping active and having FUN!

Traditional day camp programs are supervised and staffed by employees of the City of Gahanna, while program partners offer special interest camps in areas such as athletics and STEM. Additionally, periodic part-day programming offers an option for summer enrichment without the commitment of a full-week camp.

General questions including registration questions should be directed to Gahanna Parks & Recreation at parksandrec@gahanna.gov or (614) 342-4250. For special interest camps, you may also reach out to the listed contact.
